

Valorisation of research.

- Workshop (27th July) by Mr. Jean-François Soupizet, Head of International Relations of the Media and Information Company of the European Commission at the occasion of the launch of public consultation, whose objective is to define the bases of a new European Union strategy on the subject of international co-operation in the ICT (Information Communication Technology) and media sectors.

- Organisation help by the ANR (National Research Agency) and the CNRS (National Scientific Research Centre) over two days of information on the programmes launched by the ANR in the technology hardware sector (20-21 November)

- Impact of the Law on Research.

Within the framework of a Senate Cultural Affairs Commission, Senator Pierre Laffitte received on the 14th December a delegation of Senators Jean Léonce Dupont, Serge Lagauche and Jacques Valade accompanied by Mrs. Marie Pascale Boutry and Mrs. Michèle Kadi, advisor, joint director and secretariat manager.

The objective of this visit: evaluation of the implication the Pact and Law on Research 2006.

- Valorisation of research.

Within the European STAIRS project framework aiming to identify regional models of research valorisation, Senator Pierre Laffitte presides a scientific committee in the presence of Directors and Presidents of Hewlett Packard Bulgaria, Get Telecom, Capin Tech, European Investment Bank, Vinnova, of the German Federal Ministry of Teaching and Research. Its aim is to identify regional models of research valorisation.

A public session held in Sophia Antipolis and open to active figures on the Park, animated by partners of the project (engage AG, Forschungszentrum Karlsruhe GmbH), took place in order to exchange and debate with the key operators and their foreign associates, on the best practices relating to technology transfer mechanisms of research institutions. (28th to 29th June 2007)
